Team registration forms: All venue and team organisers details, some of which will be displayed on the Yorkshire Web site, which will be full venue details inc address and telephone number, 1st and 2nd organisers name and telephone number - no organisers addresses will be displayed on the web site.

Players names and attained averages: These details will be collated by the league secretaries and then emailed to all team organisers within your division and also to the league coordinator. In addition, some of these details will be posted on the Yorkshire web site. We will also share this information with England darts at the end of the season for the purpose of awarding ranking points. (players who do not wish their names and averages to be shared with England darts may request to have their averages removed by contacting the league coordinator with a request to remain anonymous)

County registration forms: Although these are collected by Yorkshire Darts, we do not hold any of them, they are all passed directly to the BDO. The YDO do however note the players names and email addresses (held by the general secretary digitally) which are used to communicate with players on forthcoming fixtures.
